PIYUSH GALA

Junior Software Engineer · Backend Developer · Automation Engineer
Mumbai, India | pythongala2003@gmail.com | +91 9579038258
LinkedIn | GitHub

Professional Summary

Python-focused software engineer with 1+ year of experience building backend features, REST APIs, automation utilities, and database-driven applications. Focused on Django, PostgreSQL, and reliable, maintainable software; brings a curious, problem-solving approach to performance, debugging, and reducing repetitive work. Portfolio includes 10+ projects.

Professional Experience

Secmark Consultancy Ltd. **Mumbai, India**
Junior Software Engineer *July 2025 – Present*

- Build features for Python-based backend applications and internal engineering tools.
- Developed reusable utilities for web scraping, browser and EXE automation, and AI integration to reduce manual effort.
- Developed a test-automation utility for Compliance Sutra, a web-based product, helping reduce repetitive manual testing.
- Improve application reliability through logging, monitoring, and debugging; collaborate with developers and QA to deliver production-ready features.

Selected Project

Investor Analytics Platform *FinTech / Web Application*
Subscription-based platform for long-term investors and swing traders, bringing research tools, calculators, screeners, and analytics together.
Technologies: Python, Django, PostgreSQL, REST APIs, HTML, CSS, JavaScript

Technical Skills

Backend	Python, Django, Django REST Framework, REST APIs, authentication, API design
Databases	PostgreSQL, MySQL, SQL, database design
Automation / QA	Test automation, Selenium, Playwright, PyAutoGUI, PyWinAuto, API testing
Frontend	HTML, CSS, JavaScript
Tools / DevOps	Git, GitHub, VS Code, Linux
Data / Other	Pandas, web scraping, logging, configuration management, problem solving

Education

Mumbai University **Mumbai, India**
B.Sc. in Information Technology | CGPA: 9.44/10 *2022 – 2025*

J. K. Shah Junior College **Gujarat, India**
Higher Secondary Certificate | 82% *2020 – 2022*

Ratanshi Umarshi Rambhiya English High School **Gujarat, India**
Secondary School Certificate | 78% *2019 – 2020*

Highlights

Strong academic performance (9.44/10 CGPA); built reusable automation workflows to reduce repetitive testing effort; continually developing expertise in backend engineering, databases, DevOps, and software architecture.
